## City Addendum Instructions

### Instructions:

Use this addendum form to apply for the city business licenses available only through the Business Licensing Service ([dor.wa.gov/cityendorsements](http://dor.wa.gov/cityendorsements)). Complete a Business License Application and a separate City Addendum form for each of your physical business locations.

Contact directly any cities not licensed through the Business Licensing Service for their licensing requirements, as they are not yet part of the combined licensing process.

1. All applicants must complete Section 1 of this addendum form.
2. Complete Section 2 of this addendum to apply for the city business license endorsement for the city where your business is physically located inside city limits (resident business):
  - a. In Section 2 of the Business License Application form, write the name of the city you entered in Section 2 of this addendum and that city's license fee amount.
3. Complete Section 3 of this addendum to apply for license endorsements with other cities where you have no permanent physical location, but that you will travel into to conduct business (non-resident business).

For each city in which you will operate as a non-resident business, provide the following information:

Column a, write the name of the city.

Column b, if the city provides a no-fee license, indicate if you qualify for it, 'Yes' or 'No'. If there is no fee-exempt license in that city you may enter N/A.

Column c, provide the date you started or will start conducting business in that city.

Column d, estimate your gross annual income for the coming 12 months in this city.

Column e, provide the number of full-time employees you will have working inside that city's limits.

Column f, provide the number of part-time employees you will have working inside that city's limits.

Column g/h, if the city charges a fee based on the number of employees (full-time and/or part-time), enter the per-employee fee. If the city charges a base fee in addition to other fee calculation include it in the total amount entered in column i. If the city does not charge fees by employee leave this column blank.

Column i, if you entered a per-employee fee in column g, multiply that amount by the number of employees listed in column e. If you entered a per-employee fee in column h, multiply that amount by the number of employees in column f. Add the two totals together and enter the result in column i. # City Fee Sheet

In most cities, a city license or registration must be obtained prior to operating a business within the city limits, including those businesses that are located outside the city limits but perform services for customers inside the city limits. Businesses located outside city limits must carry a copy of their license while operating in the city.

Some cities **may** exempt special types of businesses from being licensed. Examples of those types of business may include:

- Farmers selling their own produce
- Newspaper deliveries
- Limited number of casual sales (garage sales)
- Churches and other religious organizations
- Charitable fundraising organizations
- Fraternal benefit societies
- Participants in a city-sponsored community event
- Delivery of goods sold outside the city

A city may require proof of qualifying for an exemption. If you think your business qualifies for exemption, contact the city directly for more information.

You may apply for a General Business Endorsement for the following cities using the Business License Application at the same time you apply for state licenses and registrations. In addition to the General Business Endorsement some cities may require other licenses, such as a Home Occupation Permit or peddlers endorsement, to conduct particular business activities. Contact the cities directly for more information.

Additional forms and city approval are required for each city.
