

Aberdeen Police and Fire Department Lock Box Program

What is it?

The lock box program is designed to help disabled and senior citizens be more accessible to first responders in an emergency.

Allows first responders faster, easier, and safer access to a residence if the resident is unable to provide access due to illness, disabled, or otherwise not able to allow access.

How do I get a lock box?

Lock box requests are available online at aberdeenwa.gov or by using the QR code below.

How much does the lock box cost?

Thanks to the generous donations by the Grays Harbor Community Foundation and Rudy Run there is no cost to citizens who need them.

Who has access to the Key Boxes?

The key boxes will have a code that 911 dispatch center and first responders will have access to.

The person receiving the key box will also have the access code.
